UPDATE

New Electric Vehicle Plates

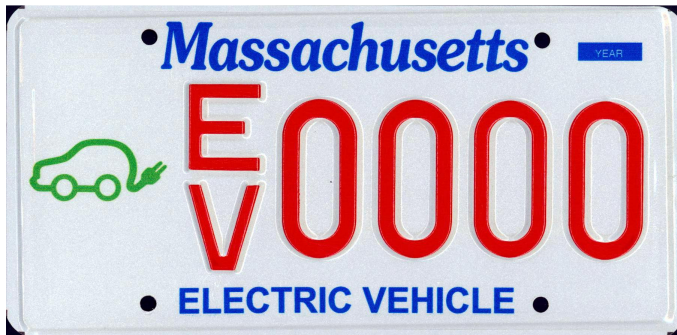

MassDOT
Registry of
Motor Vehicles
Division

New Electric Vehicle plates will soon be distributed to all RMV branches.

Electric Vehicle plates will be available in all branches for passenger vehicles and commercial vehicles that are either electric powered or are hybrids. There is no special plate fee; standard passenger or commercial registration fees will apply.

Electric Vehicle plates will not be available as vanity or reserve plates.

Electric Vehicle Plate - Passenger

Electric Vehicle Plate - Commercial

Eligibility

Anyone with an electric or hybrid passenger or commercial vehicle is eligible for Electric Vehicle plates.

Note: Electric Vehicle plates are optional for these vehicles; customers can choose to have either Electric Vehicle plates or other passenger or commercial plates.

Fees

There is no special plate fee for an Electric Vehicle plate. The fee is the standard passenger or commercial registration fee.

Renewal

Passenger Electric Vehicle plates need to be renewed every two years.

Commercial Electric Vehicle plates need to be renewed every two years for vehicles weighing 5,000 pounds or less or every year for vehicles weighing over 5,000 pounds.

Availability

Electric Vehicle plates will only be available in all RMV branches. They will not be available at EVR locations.

Plate Type

Electric Vehicle plates are available as passenger special and commercial normal plates. They are not available as vanity or reserve plates.

- Passenger Special (PAS) Electric Vehicle plates have the prefix EV followed by four digits starting at 1000 (Ex: EV1234)
- Commercial Normal (CON) Electric Vehicle plates have the prefix EC followed by four digits starting at 1000 (Ex: EC1234)
